

Control4® X4

PERSONALIZED. INTELLIGENT. YOURS.

Discover X4 and elevate your smart living experience with the ultimate in control and connectivity. New features include a revamped home screen, curated routines, seamless Apple HomeKit integration*, and more. Designed for greater personalization and convenience, X4 adapts to your needs, making everyday moments easier.

Personalization

With X4, you're in control like never before. Easily create new routines or personalize existing ones. With just a few taps, add lights to flash when the doorbell rings or set up push notifications on your phone to watch when a sensor is triggered. Or, for the perfect environment, add ceiling fans to an existing bedtime routine, along with turning off the lights and adjusting the thermostat. It's all about your preferences—set schedules, tweak settings, and let your space respond exactly how you need it.

A Fresh, Elevated Experience

The easy-to-use X4 interface complements your life and streamlines quick actions. Conveniently monitor and control all devices from one intuitive Home Screen on your touchscreens or personal devices. Designed to be personalized, Home Screen brings together what matters most to you, giving you control right at your fingertips.

Expanded HomeKit Integration

Experience expanded support for Apple HomeKit with X4. Bring Control4 to the Apple Control Center to use CarPlay, Widgets, and Siri voice commands** to enjoy greater convenience and simplify the ways you use Control4 every day.

TRANSFORM YOUR EXPERIENCE WITH CONTROL4 X4
