

**ccGEN<sub>2</sub> iOS**

**SETUP CARD AND MOBILE APP FOR IDEVICES**

With the ccGEN<sub>2</sub> iOS Mobile Setup Card and App, any iDevice turns into an Audio/Video controller.

With the ccGEN<sub>2</sub> home automation system and this app and setup card, you can turn every iPad®, iPhone® or iPod® touch into a favorite Audio/Video controller. Once installed, using the mobile app, you can make iDevices friendly remote

controls for everyone in a family. Manage and control entertainment, optional lighting and more – both inside and outside the home.

easily and naturally such as set a DVR to record, select favorite shows or movies, navigate menus, and control music choice and volume. This app requires a Wi-Fi connection to the local area network (LAN) that is host to the URC ccGEN<sub>2</sub> CP-1 Central Processor. At a minimum, one CP-1 is required in a ccGEN<sub>2</sub> system.

**The Natural Interface for Everyone**

Aided by bright, intuitive navigation screens, customers can use their iDevices to do things
